Description of Accomplishment:

Andres inherited duties and responsibilities far above his proficiency level and completed all required tasks with proficiency. His hard work and enthusiasm during the Neo PIP IBRs redesign and attention to detail as the project engineer ensured the team was successful in the redesign effort.

Andre's extraordinary contributions to the team positively and directly influenced the growth and development of the IPT. He took initiative to train and serve as a mentor to new hires in the team. His dedication and diligence is second to none. He strives to do the best and has done a remarkable job in the design of aft hub (PIP), I am grateful for your contributions
